Goal setting and action planning

It is important to set goals and have an action plan to help you achieve them. You are encouraged to set one learning and one personal goal.

S

Specific

Define your goals in detail. Answer 'W' questions such as who, where, when, what and which.

M

Measurable

It means you can measure your goal and know when you've achieved it. Ask yourself 'how much' and 'how many'.

A

Achievable

It means that you are setting goals you can accomplish.

R

Relevant

It means your goal makes sense, it is worth your effort, it benefits you and meets your needs.

T

Time-bound

It means there is a timeframe for your goal. Answer 'when?' questions such as 'in one week' and 'every week'.

My career portfolio

A career portfolio is a personal collection of materials that document learning, activities and achievements over a lifetime with everything gathered and organised in one place. A well-maintained career portfolio makes it easy to identify, and demonstrate relevant work capabilities, knowledge and experiences. It can be a collection of hard copy documents, though it is a good idea to develop a digital or e-portfolio which can include a wider range of evidence such as audio, video, images, graphics and documents.
