

REGISTRATION FORM

Sustainable Schools WA provides a whole school planning framework for 'education for sustainability' that supports implementation of the **Western Australian Curriculum**. With all schools at some point on a continuum, Sustainable Schools WA supports current and future planning to embed the cross curriculum priority of **Sustainability** within the culture of the school community.

In registering your school's participation in Sustainable Schools WA, you are making a commitment to the following:

- working towards a whole school approach to education for sustainability;
- exploring professional learning opportunities that feature the Sustainable Schools WA framework and its associated planning tools, processes and key resources, specifically its Alliance partner programs e.g. Waste Wise, Waterwise, Millennium Kids;
- developing a 'sustainability action plan' that incorporates Sustainable Schools WA's three key review, planning and celebration tools; and
- sharing ideas with, and supporting other schools, as appropriate.

Name of School: _____

Address: _____

Postcode: _____

Telephone: _____

Contact Person: _____

Email: _____

Principal: _____

Principal's signature _____ Date: _____
