

INFORMATION SHEET

SUSTAINABLE SCHOOLS WA AIMS TO SUPPORT:

- school communities with a whole-school planning framework that focuses on increasing knowledge, skills and understandings of education for sustainability;
- the use of sustainability as a key *context* for teaching and learning linked, where appropriate, to school infrastructure and day-to-day management; and
- the application of sustainability concepts and principles across the whole-school community through student-centred, action-based learning experiences; critical and creative thinking; reflection; and systems thinking.

WHAT IT MEANS FOR SCHOOLS:

- support to implement the *Western Australian Curriculum*;
- a way to engage with/enact *Caring for Country together*, the Department's Sustainability Framework;
- support for STEM education and its focus on critical and creative thinking and 'real world' problem solving;
- professional learning and resources; and
- support from Sustainable Schools WA Alliance education for sustainability partners (see over).

WHAT IT MEANS FOR OTHER KEY STAKEHOLDERS:

- **education for sustainability providers** – opportunities to expand partnership and network activities between providers that enhances the quality and reach of their programs;
- **local and regional government** – opportunities for improved take-up and integration of resources and programs with schools' sustainability action planning processes;
- **natural resource management groups** – opportunities for schools to be engaged with local community conservation projects; and
- **business and industry** - opportunities to support local schools to achieve their education for sustainability goals, and promote respective sustainability activities.
